"Sensible" Solutions...

Timeliness, Accuracy, and Budget are the critical watchwords in the provision of civil engineering services for all of our "Mini-Storage" facilities.

CivilWorksInc¹ focuses on these areas when providing Civil Engineering services for the preparation and delivery of drawings for the processing and construction of these new installations.

"**Timeliness**" means within (30) work-days of authorization a "Complete" set of Engineering Plans including: Topographic & Boundary Surveys, Horizontal Control, Grading, Utility, Sections, and related Details are ready for necessary Public Works review and approvals.

In addition, Timeliness is the ability to coordinate with Public Works' various departments including: Land Development, Flood Control, Traffic, and Fire, as well as, the (04) Utility entities.

"**Accuracy**" to us includes the attention to Dimension, Calculation, and Detail necessary for

the project development and construction of a "**Mini-Storage**" facility.

"**Budget**" by our definition, provides for positive review, research, and analysis of the Client's project to insure the maximum value for the least cost.

Tailored to your "**Specific**" needs...

Business Development Professional (BDP), Anthony S. Carreira, has over (15) years of Business Development experience. Mr. Carreira is relentless in his pursuit of total client satisfaction.

Clients have come to depend upon him as though part of their own staff. Anthony works closely with the client, the client staff, and **CivilWorksInc** project managers to assure the clients needs are communicated, understood, and met.
